

# Fun All Week With WNTC!

By Nancy Jean Claflin

In an interview with Richard Hill, Station Manager of WNTC, February 22, 1965, some of the things that "Wentcy" does for both campuses that many people are not aware of were described. WNTC's principle purpose is to entertain. It also keeps both campuses informed through its newscasts, its Collegiate Billboard, and its special advertising as in the SGA announcements. WNTC trains students to work in the radio field; it provides relaxation and fun for both listeners and staff personnel. In fact, it is the largest extracurricular activity on either campus with a staff of 60 members.

Hill said that the primary principle of the station was to extend the weekend fun

throughout the whole week. Speaking about the format of the station, Hill said, "The reason we have chosen the Top 40 format is because it is the music that the majority of the students want to hear and can't anywhere else." This assertion holds true especially on Sundays when most commercial stations do not play popular music.

Station officers at this time include Richard Hill, Station Manager; John Ward, Program Director; Les Veenstra, Chief Engineer; Stan Skinner, Director of Special Events; Bill Watson, Traffic Manager; Terry Hosking, Record Librarian; and Chief Prima Donna, Nancy.

Keep the slogan of WNTC in mind, "Keep the fun of your weekend all week long by listening to WNTC."
